

A Happy New Year 2024

I should, on behalf of ITF, like to wish you & your family members best of good health, best of good luck and every success in your responsible works & personal life in the New Year 2024.

Dear ITF family members,

We are entering the New Year 2024 with the triumphant prides & brilliant successes which we have achieved in 2023.

First, I am so grateful to all our members who keep yourselves in good spirit & health in the unforgettable hard time of Covid-19 pandemic. You provided the strong evidence to the world through your indomitable activities in that period that nothing can defeat the Taekwon-Do Spirit.

Next, I sincerely congratulate all ITF members across the globe who have become the World Champions at the 22nd ITF Taekwon-Do World Championships held in Astana, Kazakhstan in the last August.

This Championship fully shows the world that anybody is able to reach the TOP Class if you are continuing the mental & physical training without hiatus regardless of whatever conditions.

Besides above, many more progresses have been made by our unified & combined efforts in 2023, which have embellished the ITF history more colorfully & proudly and finally contributed to bringing ITF up to higher stage with the profound dignity.

In a nutshell, ITF has nothing to fear in the planet thanks to you who are providing us with the unwavering supports & full confidences.

At this moment the entire world is enjoying the New Year with the fresh hopes & anticipations, I am sending my New Year Greetings & Best Wishes to all the ITF Heroes & Heroines and your family members.

Let's continue our journey together to bring further progress to ITF in the New Year 2024.

Thank you and all the very best for the New Year 2024!

Prof. RI Yong Son

ITF President
