Great Progresses of ITF in Africa

To be honest, the weakest point of ITF was connected to the poor activities of ITF Taekwon-Do in the region of Africa. Of course, the peoples in African Continent love Taekwon-Do and have the better physical condition to be the best champions in the world, however, they are not active in promoting this martial-art in their continent because of some reasons including the financial support. In the past, there were several attempts by ITF to build the strong foundation for the growth and expansion of the original Taekwon-Do but no luck. Therefore, ITF discussed this matter with very seriousness at the 14th ITF Congress held in Thessaloniki, Greece and made a decision to send Grand Master Leong Wai Meng, the interim President in charge of Africa, to the African region for seeking the possibility to make ITF popular in this area. According to the decision made at the Congress, Grand Master Leong Wai Meng has paid a visit to Ethiopia from 3rd to 6th May 2004 and to South Africa from 7th to 10th May 2004.
During his stay in each country, he had a splendid talk with the leaders as well as all the black belt holders for taking the boom of ITF in the entire region of Africa and updated their techniques through the seminar.
In the seminar held in South Africa, the students from Mozambique and Zimbabwe were too present.
Grand Master Leong Wai Meng has received the warm and kind greetings and congratulations from ITF members in the period of visit to each country and they made an one voice to respect and follow up the last will of Gen. Choi Hong Hi and to be consistently loyal to ITF.

MANY THANKS AND CONGRATULATIONS TO GRAND MASTER LEONG WAI MENG FOR HIS TIRELESS DEDICATIONS!
